Sir:

In response to the Notice of Allowance mailed June 15, 2009, please enter the following comments regarding the application identified above as follows:

**Remarks/Arguments** begin on page 2 of this paper.

**REMARKS**

In response to the Notice of Allowance mailed June 15, 2009, Applicant makes the following Comments on Statement of Reasons for Allowance presented by the Examiner in the Office Actions of December 24, 2008, at 2, lines 10-12, and of June 15, 2009, at 2, lines 11-13. The Examiner's Reasons for Allowance deviates from the language of the allowed claims. Therefore, to the extent that the Examiner's Reasons for Allowance mischaracterize the allowed claims 1, 3, 5-13, 25-28, 33 and 34, Applicant objects. The claims, as written, speak for themselves. Applicant agrees that the claimed invention would not have been obvious at the time the invention was made, and that no prima facie showing of anticipation or obviousness could be made in view of the prior art of record.

In addition, Applicant contends that while Exhibit A, of record, demonstrates the dependence of thermal conductivity properties on elemental composition, the subject matter disclosed by Exhibit A should not be read into the claims and it should not be construed as further limiting the claimed invention.

The below-signed attorney for Applicant welcomes any questions.

Respectfully submitted,

*GRIFFIN & SZIPL, P.C.*
